

ELEMENTS COMPREHENSIVE ORTHODONTICS COURSE

Begins Jan 11-13, 2019 - Longview, Texas
Six 2019 Courses - Take one course or take them all.
Dr Chris Baker, RN, DMD, instructor
20 Hours ADA CERP credit each weekend

It's a series of orthodontic courses like none other.

Personal, professional, scientific, yet practical.

The ELEMENTS Comprehensive Course is taught by **Dr Chris Baker**, RN, DMD, one of the world's best-known teachers of orthodontics to GPs and Pediatric dentists.

As Past President of the American Orthodontic Society and of its Board of Examiners, **Dr Chris** is a current or former faculty member of three U.S. dental schools and author of five books. She practices orthodontics in

Texas, USA, and Abu Dhabi, United Arab Emirates. **Dr Chris** teaches orthodontics worldwide, and writes and produces the dental blog, "Love and Orthodontics."

At ELEMENTS, we care about your success in your dental practice and in life. Our curriculum has invaluable instruction on both the PRACTICE of orthodontics and the BUSINESS of orthodontics.

The ELEMENTS course is designed to get the dentist out from between the “crush” created by insurance companies, giant corporations and Medicaid. Dentists are taught to practice orthodontics by providing what is best for the patient, and to do so profitably.

ELEMENTS courses can be taken individually or combined to make the best comprehensive orthodontics course available. The quality of instruction, course materials, instructor experience and follow-up are unmatched, anywhere. Each weekend course provides 20 hours of ADA CERP credit.

ELEMENTS™ Course Dates for 2019:

- **11-13 January, 2019;** Diagnostics, Treatment Planning, Conferencing Getting to Know Your Patient and Forming a Friendship Between You.
- **15-17 March, 2019;** Bracketing and Banding, appliances and wire sequences. How to choose the appliances that will make your life and their life the easiest and happiest
- **10-12 May, 2019:** Sagittal Correction - Class II, Class II, Sagittal correction first, will save sanity - yours, AND your patient's, AND their parents'. The How's and Wherefore's To Avoid Problems.

What makes the ELEMENTS seminars different? What sets us apart?

Here are 7 (of Many) Reasons to learn Orthodontics with us here at ELEMENTS:

1. EXPERIENCE. Dr. Chris Baker was fortunate to work with pioneering orthodontist and pediatric dentist Dr Walter A. Doyle, who first taught orthodontics courses for pediatric and general dentists in 1971, teaching regularly until his death in 1999. As his partner, co-instructor and protege, Dr Chris taught orthodontics with Walter from 1991-1999 and has continued the tradition ever since. She has been a faculty member of three U.S. dental schools, and teaches and practices orthodontics internationally.

2. COLLEGIALITY. During the seminar weekends, doctors in the course enjoy fine food and beverages together. Meals are included as part of their seminar weekends. The learning continues throughout each evening, with each doctor sharing his or her own experiences and cases.

3. SETTING. The ELEMENTS courses are located in picturesque East Texas, with participants learning together, and spending hospitality and time together in comfortable and luxurious surroundings. Enjoy your ELEMENTS colleagues, friends, fun and learning environment.

4. LATEST RESEARCH. Dr Chris has personally treated more than 1,600 orthodontic cases over the last six years — and many, many more over the previous 26 years. She

works with leading orthodontic suppliers and developers, creating fun, simple and effective new orthodontic solutions. These techniques and understandings are yours with ELEMENTS.

5. ELEMENTS COURSES TEACH MORE THAN ORTHODONTICS. THEY TEACH ABOUT LIFE.

Learn more than orthodontics. Learn the business strategies to use ortho to create profit and rewarding experiences in your practice. As a consultant, Dr. Chris has established orthodontics programs for five pediatric dental practices — she knows the business of orthodontics. Dr. Chris practices orthodontics in Abu Dhabi, United Arab Emirates, and in Texas, USA.

6. TAKE THE COURSES IN ANY ORDER - LEARN WHAT YOU NEED. After all, who knows more about your learning needs than you do?

7. FOLLOW-UP AND SUPPORT. With ELEMENTS, the learning doesn't stop when your course ends. Questions arise and the ELEMENTS staff is here to help. Dr Chris and the ELEMENTS team make a point to be available to you.

The course will be held in Longview, Texas, serviced by East Texas Regional Airport (GGG) It is a 2-hour drive from DFW and a 50-minute drive to Shreveport (SHV airport).
